2026 EDITION

Apricots *Kayısı*

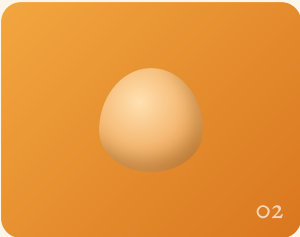

Dried apricots are mainly produced in Malatya, Türkiye, which accounts for roughly 85% of the world's production. Grown in fertile Anatolian soil and offered sulphured (bright orange) or naturally sun-dried (brown). Naturally rich in fibre, vitamins and energy. All apricots are produced within an ISO 22000 / FSSC 22000 food-safety system.

Dried Apricot *Kuru Kayısı*

Classic whole dried apricots from Malatya. Available sulphur-treated for a bright orange colour and soft texture, or naturally dried to a deeper brown. A versatile staple for snacking, baking and confectionery.

Extra Virgin Olive Oil *Sızma Zeytinyağı*

Cold-Pressed Extra Virgin Olive Oil

A unique olive oil made from the Aegean region's olives, cold-pressed without heat or additives. Produced from hand-selected olives through first cold-pressing and purely mechanical extraction — a very rich, distinct, earthy flavour. Perfect for drizzling, salads, mezze and everyday cooking.

TYPE	Extra virgin	ORIGIN	Aegean region, Türkiye
EXTRACTION	Cold-pressed · first press	ADDITIVES	None
OLIVES	Hand-selected	PACKING	Retail & bulk

Organic Fruit Preserves *Organik Reçel*

A 50-year preserve heritage that began in 1975 in Merzifon, Amasya, where fruit marmalade was cooked in traditional cauldrons over a wood fire. Fruit is wild-harvested from the mountains of Anatolia and processed in its most natural state, in small batches with fresh production after order. Three fruits — **Rosehip, Hawthorn and Cornelian Cherry** — are each offered in four recipe styles.
